Notice to ATIPP Applicants

Re: Online posting of new ATIPP requests

Dear Applicants,

This letter is being written to inform you regarding changes being made to the management of requests for government program information.

As part of our commitment to making more information available to the public, Yukon government will be making access to information requests for government program information available to the public as of September 1, 2017. As of this date, the ATIPP office will post closed requests to the ATIPP Office's public website on a monthly basis.

By publicly posting program requests, the Yukon government seeks to increase public awareness of current issues and questions being asked of the government.

The ATIPP office would like to further clarify this initiative with the following assurances:

- Access to information requests for personal information will continue to remain confidential. Only requests for government program information will be posted.
- Names and contact information of all applicants will continue to remain confidential. Only the content of the requests will be posted.
- Applicants will be informed that access to information requests for program information made after August 1 will be posted to the public website.

The ATIPP office continues to work toward the public availability of government-held information. If you have any questions regarding the contents of this letter, please do not hesitate to contact David Downing, Records Manager, at david.downing@gov.yk.ca .
